Report

Department of English and Research Centre
Remedial Coaching for 'Sounds of English' for FYBA Students

Report

The remedial coaching for FYBA students was offered for the topic 'Sounds of English (Phonology)' in the subject **Optional English**. The topic is new for the first year students and classroom teaching was not sufficient. Besides, the students were unable to follow the contents. Because it involves learning from the alphabets of sounds i.e. phonemes. Maximum students were struggling with the topic so additional remedial coaching was offered particularly to those who were slow in learning. This was offered to **twenty one (21)** students and successfully completed. The students at the end of six hours of coaching (**from 9 to 15 October**) caught pace with the subject and there was improvement observed in the subject that is otherwise kept for the option by students. In some cases, students just don't answer the questions on the topic in the examination. So the sessions were welcomed and were utilized by the students to their maximum benefit.

Report

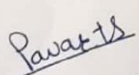

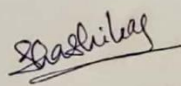

Report of the Remedial Coaching
Department of English
2023-24

Remedial coaching was offered to the students in the second semester of 2023-24. Prof. Pawar T. S. conducted five sessions on Reading Skills in the month of January. Sixteen students were the beneficiaries of the coaching. These five sessions were conducted from 08th January, 2024 to 22th January, 2024, between 12.30 p.m. and 01.30 pm.

The information in detail:

SN	Name of the Teacher	Time	Duration	No. of Students	No of sessions	Funding Agency

Remedial Teaching Course on DBMS

Course Objectives:

The objective of this course is based on the Information Architecture Principle, every database can be architected or evaluated by six interdependent database objectives. Four of these objectives are primarily a function of design, development, and implementation: usability, extensibility, data integrity, and performance.

Course Outcomes:

Upon successful completion of the course, the students will be able to:

Co1	To understand role and importance File Structures and Organization
Co2	To develop skills related with Database basic Concepts
Co3	To Develop right understanding of various Data models
Co4	To Understand the Programming in SQL and Implementation
Co5	To Learn about Relational Database Designing.
Co6	Understand the concept of data anomalies of un-normalized database, Normalization, normal form etc.

P.D.E.A's

Annasaheb Magar Mahavidyalaya, Hadapsar, Pune-411028,

Department of BBA (CA) 2023-2024

Remedial Teaching Course on Data Structure

Course Objectives:

1. To understand the concepts of ADTs
2. To learn linear data structures—lists, stacks, and queues
3. To understand sorting, searching and hashing algorithms
4. To apply Tree and Graph structures

Course Outcomes:

Upon successful completion of the course, the students will be able to:

Co1	Understand the concept of dynamic memory allocation, data types, algorithms, asymptotic notation, ADTs.
Co2	To learn linear data structures – lists, stacks, and queues
Co3	To understand sorting, searching
Co4	Student should be able to apply Tree and Graph structures
Co5	Student should be able to efficiently implement different data structure
Co6	To apply Tree and Graph structures

Bridge Course
REPORT

24/07/2023.

The department of BBA Annasaheb Magar Mahavidyalaya organized the bridge course on '**Business Accounting**' for FY BBA students. This bridge course was running for 10 days.

The first year students of BBA, who are from science and arts background, are unknown about accounting subject. The main objective of this course is to prepare foundation for accounting and improve a basic knowledge to those students. All FY BBA students participated and successfully completed the course.

This bridge course helped students with science base to get into commerce stream. All the FY BBA students participated and successfully completed the course.
