7.2. BEST PRACTICE II PLASTIC COLLECTION AND DISPOSAL DRIVE

***** Objective

To create awareness about reducing plastic use, encouraging its reuse, and promoting proper disposal using environmentally friendly solutions. This initiative aims to instill values of environmental awareness and responsibility among students to help mitigate the overall impact of plastic on the ecosystem.

Context

Plastic, being inexpensive, lightweight, and durable, has been extensively produced and used over the last 60 years, leading to significant environmental problems, including health risks, ocean biodiversity degradation, and economic setbacks. To combat this issue, our institute has collaborated with the Sagar Mitra Abhiyan ("Friends of the Ocean" initiative). This initiative focuses on educating students and the community about reducing, reusing, and recycling plastic, as well as the importance of responsible disposal.

Practice

- A plastic policy was prepared and implemented.
- Students and the community were sensitized through guest lectures on plastic reduction, reuse and recycling, water conservation, and plastic disposal to cultivate social and civic responsibility.
- Collaboration with the Sagar Mitra Abhiyan began on 11/10/2022, involving the botany department.
- An environmental awareness rally was conducted.
- A guest lecture by Mr. Vinod Bodhankar was held on the birthday of Honorable Ajit Dada Pawar (President of PDEA and Deputy Chief Minister of Maharashtra), initiating a plastic waste collection campaign. This campaign highlighted Ajit Dada Pawar's role in environmental conservation to students, faculty, and society.

- All students, teachers, and non-teaching staff were requested to bring plastic waste from home and deposit it in a designated container at the college by the 22nd of each month. The collected plastic was then handed over to the Sagar Mitra Foundation for responsible recycling.

❖ Evidence of Success

- The initiative raised awareness about plastic reduction, reuse, and recycling through an environmental awareness rally in the local area.
- Students and staff members actively participated in collecting plastic waste.
- The amount of plastic collected in 2022-2023 and 2023-2024 was 7.21 Quintal.
- All collected plastic was responsibly handed over to Sagar Mitra for safe disposal.
- The initiative successfully inculcated awareness about plastic use and disposal among students and the community.
- A significant amount of plastic was prevented from causing environmental problems and was recycled effectively by the Sagar Mitra Foundation.

* Remark

This initiative focuses on educating students about responsible plastic disposal, addressing ocean issues such as climate change, freshwater security, energy security, and cultural impacts. By involving students, we ensure these values are passed on to future generations, creating a lasting impact on environmental conservation

Sagarmitra Abhiyaan - Friends of Oceans Initiative

• Categories: Pollution

• Organization Name: The Academic Advisors

• Location: Pune, Maharashtra State, India

• Grade/Ages: 5th grade to 9th grade

• Teacher: Vinod Bodhankar

• Classroom/Project team/names: Susan Raaj, LalitRathi, Shailendra Patel, Azam Shaikh

• Email address: parvatara@gmail.com

• Website: http://www.sagarmitra.org

• Project Date: 1 July 2011 (ongoing project)

The SagarMitraAbhiyaan now has 82,000 school students who keep aside home plastic wastes in a Sagar-Mitra (Ocean-Friend) bag and fetch it to school once every month. From here it is collected and sent for recycling. 2011-12 we had 150 students as volunteers. 2012-2013 we had 10,000 students as SagarMitras. 2013-2014 we had 61,000 students as SagarMitras (Ocean-Friends). 2014-2015 we now have 82,000 school students and will target for 1,00,000 student members by end of March 2015. Each student changes 3 people at Home into SagarMitra (Ocean-Friend). By this estimate by March 2015 we will have 4,00,000 of the 55,00,000 population of Pune City in SagarMitra Activity. The program is already introduced in 40 cities/towns and is started well in 2 cities: Wai (11 schools, 1500 students) and Jalgaon (6 schools 1000 students), both from India. (82,000 + 1500 + 1000 = 84500 Sagar-Mitras). Teams are created in Nagpur, Surat, Ichalkaranji, Lonavala, Chakan, Nashik, Aurangabad, Latur Sholapur towns/cities. The aim is 150 cities and every school in each city by 2020. In Pune alone we aim to reach and recruit 1,200,000 students by 2018. The Program was introduced in 2 research papers in September 2014 at Perugia, Italy in the 15th World Lake Conference.

Mission | World Ocean Observatory

OUR MISSION

World Ocean Observatory (W2O) is the leading organization advocating for the health and sustainability of global climate and ocean through an accessible worldwide network of communication. Through education, partnership, information exchange, public connection, and relentless communications, W2O is committed to building an expansive global community of ocean literate individuals who will promote and conserve natural and marine resources for the future of all mankind.

PREMISES

- > The ocean is an inter-connected global ecosystem that integrates natural process, habitat and species with human intervention and impacts.
- > The ocean is a comprehensive social system that integrates human need for fresh water, food, energy, health, transport, and recreation.
- > The ocean is a complex political system that integrates nations and connects peoples through economic interests, cultural traditions, and cooperative governance.
- ➤ The ocean today evinces a critical shift: from abundance to scarcity, accommodation to conflict.

- ➤ The ocean today is viewed as a place apart, its significance fundamentally misunderstood and critically ignored at most levels of society.
- ➤ The ocean demands a new information service that meets the needs of an inquisitive public and transcends the limits and biases of governments, research organizations, national interest groups, and non-governmental organizations with more narrowly defined environmental agendas.

The ocean is climate. Climate is ocean.

GOALS

- ➤ To build an educational initiative incorporating ocean information into exhibits, educational innovations, public programs, and informational services.
- > To share these resources through partnerships with existing museums, science centers, aquaria, libraries, NGOs, schools and other educational institutions, thereby reaching audiences around the world with the greatest effect and economy of scale.
- ➤ To expand public awareness of the implication of the ocean for the future of human survival.
- ➤ To serve as a central place of exchange for ocean information, education and public discourse. To serve as an independent forum and focus for ocean affairs.
- ➤ To advocate for the ocean through an open, worldwide network of communication.
- > To provide a window on the future of the ocean for the general public and decision-makers around the world.

STRATEGIES

- > To communicate globally.
- > To use the efficiency of partnerships and existing structures.
- > To reach a differentiated audience, locally and worldwide.
- > To affect the inter-generational transfer of knowledge.
- > To be science-based and humanities-driven.
- > To be non-litigious, independent and apolitical.
- > To advocate through information and education.
- > To promote civil discourse, peace and security on the ocean.

To be optimally economical in service, personnel, and overhead.

To be financially self-sustaining through grants and endowment.

Introduction: The context that required the initiation of the practice:

In today's world plastic has become a major threat to the livelihood of mankind and other living beings. With the increasing use of plastic the environment is becoming polluted at rate seen never before.

Therefore it has become the need of the hour to say no to Plastic.

Therefore the college has started the campaign 'Say No to Plastic'

☐ Objective of the practice:

The main objective of the campaign is to make the campus plastic free and at the same time make the students aware of the hazards that plastic especially single use plastic has created.

☐ The Practice:

Single use plastic is totally banned in the campus. The single use tea cups in the canteen are banned. Plastic packing materials are also not used. The plastic wastes that come to college are properly disposed. The 'Reduce, Reuse and Recycle' policy is adopted. Plastic Free Campus: To create awareness on the hazards of use of plastic, especially single use plastic. Single use plastic is totally banned in the campus. The single use tea cups, plastic packing materials are not

Guest Lecture by

Vinod Bodhankar (Jalrushi), Sagarmitra Foundation

PDEA's Annasaheb Magar Mahavidyalaya Hadapsar Pune, Academic and Research Coordination Committee & Department of Botany organised a guest lecturer on "Collection & Disposal of Dry Plastic Garbage for Recycle" on 18th July 2023 at Shri Chatrapati Shivaji Hall at 11 am. Hon. Vinod Bodhankar (Jalrushi), Sagarmitra Foundation, was a resource person of the guest lecture.

He was explained the aim & objectives of Sagarmitra Foundation. He also mentioned the importance of recycle of waste plastic garbage. Hon principal Dr. Nitin Ghorpade was chaired the program. He also expressed his views on plastic Collection & disposal activity of college which run on 22nd day every month. This activity was started under the able guidance of Our Patron Hon. Ajitdada Pawar Saheb, President of Our mother institute Pune District Education Association. Prof. Shaila Dhotre introduced guest, whereas as anchoring of the program was done by Dr. Savita Kulkarni. In all 154 faculty of college was present for the program.

वापरलेल्या प्लास्टिक संकलनासाठी श्रमजागृतीची आवश्यकता : विनोद बोधनकर

प्लास्टिक प्रदूषणामुळे ऑक्सिजन कमालीच्या वेगाने कमी होत चालला आहे त्यामळे माणसालाही धोका निर्माण झाला आहे. हा धोका टाळण्यासाठी वापरलेल्या प्लास्टिक संकलनासाठी श्रमजागृतीची आवश्यकता आहे, असे प्रतिपादन ज्येष्ठ पर्यावरणतज्ञ विनोद बोधनकर यांनी केले.

हडपसर येथील अण्णासाहेब मगर महाविद्यालयात पुणे जिल्हा शिक्षण मंडळाचे अध्यक्ष तसेच महाराष्ट्र राज्याचे उपमुख्यमंत्री आदरणीय अजितदादा पवार साहेब यांच्या वाददिवसानिमित्त विविध उपक्रमांचे आयोजन करण्यात आले आहे. या उपक्रमांतर्गत शैक्षणिक व संशोधन समन्वय समिती विभाग व वनस्पती शास्त्र विभाग यांच्या संयुक्त विद्यमाने हप्लास्टिक संकलनः पुनर्प्रक्रिया व पुनर्वापर काळाची गरजर या विषयावर सागर मित्र अभियानाचे संस्थापक नेष्ठ पर्यावरणतज्ज्ञ विनोद बोधनकर बोलत होते. या कार्यक्रमाच्या अध्यक्षस्थानी पुणे जिल्हा शिक्षण मंडळाचे उपाध्यक्ष राजेंद्र घाडगे

अण्णासाहेब मगर महाविद्यालयात व्याख्यान

होते. कार्यक्रमाचे प्रस्ताविक प्राचार्य डॉ. नितीन प्रमाणात प्लास्टिक येत असते. त्याचे विघटन जंगले, दऱ्याखोरी नव्हे, तर समुद्रही व्यापलेला घोरपडे यांनी केले.

होणे सोपी गोष्ट नाही, प्लास्टिक प्रदुषणाला आपण आहे, नद्यांमधून वाहत जाणारे प्लास्टिक समुद्रात विनोद बोधनकर म्हणाले, की बानारातुन स्वतः जबाबदार धरायला हवे. प्लास्टिकच्या जाते. समुद्रात जाऊन प्लास्टिक गोळा करणे खरेदी केलेल्या वस्तुंसोवत आपला घरात मोठ्या थरांनी केवळ आपला भूभाग, त्यावरील वने, शक्य नाही त्यापेक्षा त्याचा वापर टाळणे सीपे

आहे. प्लास्टिक प्रदूषणामुळे मोठ्या प्रमाणावर जैवविविधता, प्राणी, पक्षी, मासे वांचे जीवन घोक्यात आले आहे.

मुंबईसारख्या महानगरात प्लास्टिकम्ळे नाले, गटारे तुंबल्यामुळे महापुर येऊन निर्माण ज्ञालेली परिस्थिती आपण अनुभवली आहे. प्रत्येकाने आपल्या घरातील प्लास्टिक संकलन करून सागर मित्र संस्थेकडे जमा केले पाहिजे. प्लास्टिक संकलनाचे महत्त्व समाजातील प्रत्येक घटकांपर्यंत पोहोचले पाहिजे, असे मत पुणे जिल्हा शिक्षण मंडळाचे उपाध्यक्ष राजेंद्र घाडमे यांनी अध्यक्षस्थानावरून बोलताना मत व्यक्त केले.

महाविद्यालयाचे प्राचार्य नितीन सावळे. प्राचार्य सचिन भारद्वाज, उपप्राचार्य डॉ. शुभांगी औटी, डॉ. प्रशांत मुळे, प्रा. अनिल जगताप, प्रा. की. एन, शिंदे तसेच तीनशे शिक्षक, शिक्षकेतर सेवक व विद्यार्थी उपस्थित होते.

सुत्रसंचालन डॉ. सविता कुलकर्णी वांनी, तर आभार डॉ. सुनीता वानाई - तांभाळे यांनी मानले. पाहण्यांचा परिचय डॉ. शैलजा घोत्रे यांनी करून दिला.
