*Environment Audit (2020-21)*

**7.1.5 Environmental policy measures**

Under the guidance of Respected principal Dr. P N Shelke the environmental science department has been given a very important social responsibility of Keeping in mind the future of our earth and inculcating the importance of environmental issues in students studying in our campus this includes, development of our campus into sustainable and zone of ecological balance.

To inculcate environmental responsibility among student and staff following initiatives were taken:

- 1) More Emphasis is given on planting more and more trees to save environment..
- 2) Rain water harvesting is carried out and water is used for gardening purpose.
- 3) Potability of water is done regularly to check the quality of water by Department of Microbiology.
- 4) Use of plastic in the campus is banned and remaining plastic if any is collected and is processed for recycling.
- 5) All the science laboratories are instructed to dispose the biological and chemical waste as per the standard procedures.
- 6) Students are encouraged to use electronic mode for submission of assignments and examinations. Students are motivated to use E-book.
- 7) Students are inculcated the responsibility of Environment awareness by Conserving energy by switching off electronic equipments time to time.
- 8) College organizes guest lectures on "Environmental issues" To make aware the students upcoming Challenges of environment.
- 9) Minimum Use of paper in Administrative processes is motivated.

10) To Maintaining hygienic environment in college, college has vending Machines in ladies room for incinerations of Sanitary napkins.

11) College has Solar Panels to generate electricity so that it can be used in Providing Electricity in college campus.

12) College celebrates 5<sup>th</sup> June as "World Environment Day" Every year to spread awareness about the threat to environment due to rising pollution levels and climate change.
