**National Level Multidisciplinary Seminar on
"CONTEMPORARY SOCIO-ECONOMIC & POLITICAL ISSUES IN INDIA"**

On 24th and 25th February 2020

Any society, as it evolves in history, faces and solves a gamut of variegated challenges and problems. However, one shouldn't be sure that it always enhances its wisdom in a progressive direction. History has enough instances where we may see that it recedes into irrationality. Therefore, self introspection by society as a collective consciousness is a deep concern for its wisdom to survive, and in that, the intellectuals- researchers and academicians have a moral duty to keep a check on the socio-political journey of their society. In this light, here is an invitation to you to come and join this seminar that explores and problematises challenges that our society faces in its social, political, economic, and cultural domains. To have a holistic assessment of our travel in history towards future, we must look at the contemporary issues from all possible perspectives, and therefore, we have adopted multidisciplinary in methods for this National Seminar. Through that, we seek to analyse a range of contemporary issues that are coming out either as an established problem or a social concern for India's liberal democratic society. From theoretical and practical hurdles in affirmative policies, to a larger socio-political analysis of oppressions based on intersectionality of caste, class, gender, religion and culture. From revisiting institutional ethics to articulating potential withering of democratic ethos. From suspecting a rise in authoritarian tendencies to debunking myths and charting facts around the health of our economy. From assessing socio-psychological impacts of newly formulated laws and acts to discussing their real time implications in future.

We invite you to contribute to this ever enlarging discussion and have other researchers and academicians to engage in a task that is quintessential for our times. The seminar seeks papers around the following sub-themes:

1. Reservation Policy and its Impact
2. New Mob culture and Lynching's
3. Crises of Independent Agencies (RBI, ECI, CAG, CBI, etc.)
4. Health of Indian economy
5. Debates on CAA & NRC
6. Kashmir issue and Article 370
7. Question of Gender in a globalizing world
8. Environmental implications of globalization
9. Mass media's trustworthiness and accountability

Kindly send your research paper on or before **15th February 2020**. Research Papers can be presented in English, Hindi and Marathi language. The Papers must be in usual standard format with an abstract and particulars about authors.
