## 12. How do your activities contribute to the mission and vision of the institution?

**This activity has helped to broaden the awareness of human rights. The lecture enlightened the knowledge of women and girls with equal access to education, health care, decent work, and representation in political and economic decision-making processes which will fuel sustainable economies and benefit societies and humanity at large. Implementing new legal frameworks regarding female equality in the workplace and the eradication of harmful practices targeted at women is crucial to ending the gender-based discrimination prevalent in many countries around the world.**
