Respected Chairman
BOS Botany

According to revised FYBSc syllabus following practicals are added....
1. Study of Bentham and Hooker's system of classification outline up to series with example
2. Study of DPD by using suitable plant sample.
and
following practicals are deleted

1. Study of utilization and economic importance of Pteridophytes and Gymnosperms.
2. DNA extraction using banana / phenol chloroform method or any suitable method and checking purity of DNA by 260:280 ratio.
By considering above changes it is essential to change previous FYBSc Practical skeleton for sem. II.

Please provide revised FYBSc Practical skeleton for sem. II.
Previous FYBSc Practical skeleton for sem. II is attached here with.

Practical No 12. Demonstration of any Three Evidences of Organic Evolution

1. Evidences of organic Evolution from comparative Anatomy & Morphology

1. Homologous Organs:

2. Analogous Organs:

In the above practical, experimental evidences were put up of animal examples. I have suggested to include plants examples for Analogous Organs ex: Stipules *Lathyrus aphaca*, Petiole *Acacia auriculifolia* stem branches *Ruscus Asparagus* (The function of leaves is then taken over by other organs like stipules. So that they are analogous amongst them as well as to the leaves.)

3. Vestigial organ:

4. Connecting Links

5. Atavism:

2. Embryological evidences from Embryology

i. Recapitulation theory/ Biogenetic law

3. Biogeographical evidences from biogeography

i. Discontinuous distribution of closely related species

ii. Restricted distribution

Subject:- Suggestion in T. Y. B.Sc. Physics Practical Course PHY -357: Laboratory Course 3B

Respected Sir,

As per the syllabus of TYBSC Physics, it is found that X-ray diffraction practical is introduced, however the most of the college does not have the facility of XRD Set up. This practical is conducted theoretically by the colleges.

So I request you instead of X-ray diffraction practical introduce the determination of the bandgap by using UV-visible spectroscopy which is available in most of the colleges.

Thanking you

Subject:- Suggestion in T. Y. B.Sc. Physics Course PHY-354: Atomic and Molecular Physics (Credit-2)

Respected Sir,

As per the syllabus of TYBSC Physics Course PHY-354: Atomic and Molecular Physics (Credit-2), it is found that in third chapter Molecular Spectroscopy introductory part is included related to rotational and vibrational spectra for diatomic molecule. This topic already thought in FYBSC (PHY-112-Physics Principle and Application). As per my knowledge for the better understanding of this topic, Experimental part of UV-Visible and IR spectroscopy should be included in this chapter.

Hence it is requested to kindly add UV-Visible and IR spectroscopy in syllabus for conceptual and practical understanding of the students.

Thanking you

Subject :- Suggestion for T.Y. B. Sc. (Electronics) CBCS pattern syllabus.

Respected Sir,

As per the new syllabus for T.Y. B. Sc. (Physics) CBCS pattern will be implemented from 2021-22. I have some suggestion regarding Electronics course as follows.

1. First Chapter Semiconductor devices please remove repeated portion which included in SYBSC Electronics I. For Ex:- Rectifier Filter, and Power supply
2. More focus should be taken on designing and problem solving approaches for electronic circuits.

Please do the needful.
