Certificate course

“Fermented food and beverages”

Aim:

Certificate course in “Fermented Food and Beverages” has been designed for students to enrich their knowledge for future career in food and beverage industries and to be entrepreneur of small scale industry.

Objectives:

Students can seek a career in fermented food production, distribution and packaging companies. This certificate course program will assist them to gain skills and knowledge about quality control and various types of fermented food and beverages that are served in the food industry.

Course Structure:

The certificate course comprises of theory and practical sessions. The practical sessions will be extensive at par to the hands on training.

After completion of the certificate course by the students, he/she will be awarded certificate to augment their resume for seeking a fine career in future.

Expected certificate course outcome:

The certificate course outcome is aimed on progression pathways of the student:

- i. Can join industry as Technician / Supervisor at packaging unit of fermented food and beverage industries.
- ii. Can become Entrepreneur in small scale unit
- iii. Can become instructor at vocational / ITIs in the subject.
- iv. Can join Advanced Diploma (Vocational) courses under DGT.
- v. Can become a microbiologist for quality control and quality assurance in at fermented food and beverage industries

To make students know importance of this software for publishing research articles,papers ,project reports and books and thereby help them to be comfortable with the software .

Unit I : Installation of LaTeX

05Hours

- i) Installation of Kile and MikeTeX.
- ii) Class and packages
- iii) Latex programming and commands,sample packages
- iv) Error messages : Some sample errors,list of LaTeX error messages

05Hours

Unit II : Formatting of output document :

- i) Fonts,symbols,indenting,paragraphs,line spacing,word spacing,titles and subtitles
- ii) Document class,page style,parts of the documents,table of contents
- iii) Command names and arguments,environments,declarations
- iv) Theorem like declarations,comments within text,

10 Hours

Unit –III : Mathematical formulae :

- i) Mathematical environments,math mode ,mathematical symbols
- ii) Graphic package,multivalued functions,drawing matrices
- iii) Tables,tables with captions
- iv) References to figures and tables in text

The department of Computer Science(Mathematics) organized one day workshop “**INTRODUCTION To LATEX**” for S.Y. BSc. (Comp. Sci.) students. It was conducted in Mathematics On Zoom App from 10:00 am to 03.00 pm.

Initially Student were commonly addressed by Vice Principal - Dr. Mulay P. P. ,Prof Langote U.B (Head, Mathematics). they were discussed Importance of LATEX .

Prof Adling V.L. gave Information of basic of Latex. In this course student had create colour document, Image Insert , title, listing.

The student also shared their views. They suggested conducting activities which will help to build the confidence among the students.

The students were quite satisfied with LATEX one day workshop. It will definitely enhance the development of the student’s academics.

Course Outcomes:

Students will be able to learn:

- Type setting of complex mathematical formulae using LaTeX.
- Use tabular and array environments within LaTeX.
- Use various methods to either create or import graphics into a LaTeX document.
- Typesetting of journal articles, technical reports, thesis, books, and slide presentations.
- Automatic generation of table of contents, bibliographies and indexes.

Report on Data Communication and Security Methods

Department of Computer Science organized a activity for under graduate students. This unique activity helpful for students to gain extra knowledge on current trend technologies which is useful for the student for their placement. Staff members of Computer Science Dept. take lead to conduct this activity in free of cost.

The evolution of Information Communication Technology (ICT) and growing security concerns demands flexible and generally comprehensive approach to the issue of data communication and security. This course provides a broad introduction to a variety of topics in applied computer, network, and system security.

The main aim of this course is to become students more aware, responsive and responsible digital citizens, thereby contributing effectively to an overall healthy data communication and security posture and ecosystem.

Total 112 students were attending the sessions.
