## BEST PRACTICE- II

### 1] Title - 'Cyber Awareness and Literacy Cell'

#### Objective-

- To spread awareness about cyber security, safety and responsible practices among the students and society through trained student volunteers.
- To provide professional exposure to the trainees and to open avenues for an alternate means of revenue generation.
- To provide faculty development program for the faculty members of the Institute.
- To participate in academic activities initiated by the Quick Heal Foundation.

#### The Context

As the spread of the handheld computing devices has been increased and penetration of internet is witnessed in remote areas, students are spending more time on these devices. The use of social media through such devices is also increased. Some of the students are succumbing to the dark side of internet. As teenagers are more vulnerable, the Institute desires secure, safe and responsible practices to be adopted by the students.

Considering this, the institute has taken an initiative in collaboration with Quick Heal Foundation (QHF) and established CALC (Cyber Awareness and Literacy Cell) to protect devices and data from attack, damage and unauthorized access along with the other objectives mentioned above.

## Evidence of Success-

In academic year **2018-19**, QHF offered training program to 28 CALC volunteers and 2 mentors from computer science department. These volunteers delivered 154 presentations and lectures in 52 schools near by Hadapsar for creating awareness about cyber-crime and cyber security. This activity was conducted for almost twenty days. **In all 31,978 students were benefitted.** Volunteers received **Rs.1,88,400/- as a remuneration** from Quick Heal Foundation. A Quick Heal Web Portal Support was developed by staff and students to obtain a single point of access for information. This web portal involved a issues- access control, authentication, privacy, and security management. Aside from increasing awareness, this activity provided professional exposure for the trainers while also creating an alternate means of revenue generation. .

In academic year **2019-20**, QHF offered training program to 22 CALC volunteers and 2 mentors from computer science department. These volunteers delivered 107 lectures along with presentations in 47 schools in the vicinity. **20,129 students have been benefitted. Volunteers have received Rs. 1,20,000/- remuneration from QHF.** This initiative endeavors to shape the future champions of cyber security. It is also found that communication skills of the student volunteers have been increased significantly and helped them to get selected in campus placements.

In academic year **2020-21**, due to pandemic situation of COVID 19, the volunteers were trained online by the QHF. - Similarly volunteers - managed to take awareness sessions in online mode through Zoom application. Considering the pandemic, the online course '**Cyber Shield**' was initiated by QHF through web portal '**e-Cyber-Shiksha**'. Hundred volunteers from the institution were engaged in the **Stress and Beta Testing** of this web portal.

In academic year **2021-22**, 669 students registered for the activity and they accessed the online study material in the form of doc. PDF and videos and appeared for the online examination. The students with higher score in the above examination were considered for Earn and Learn Scheme under CALC.

In academic year **2022-23**, This activity of QHF was coordinated by Program Manager, Sr. Executive CSR) and two members. Our 30 students of UG and PG worked as volunteers and 3 faculty members were mentors for the Earn and Learn activity. The students were appointed as volunteers and groomed by giving required training of personality development. Thus along with cyber security awareness students were trained for various skills such as public speech, confidence building, presentation and team building.

After effective guidance, mock presentations of all volunteers were performed.

Under earn and learn - Cyber Security Awareness Campaign, our volunteers had sensitized total

**33,703 students of different schools and colleges.** They visited 73 different schools and Senior.

and Junior colleges and gave 164 presentations in Pune district. **They earned a total sum of Rs. 2,33,800/- in this academic year.**

Students also conducted impact building activities for Senior Citizens, PMT staff members, Hospital employees, Farmers, Green grocers, where they trained them to do 2 step verification, to secure the personal information and banking information.

Every cyber warrior(volunteer) made the reels (audios and videos) of all presentations and impactbuilding activities and uploaded them on social media like Facebook and Instagram.

**Our institute was awarded as “Cyber Shiksha Champion of the Year 2023” Under Cyber Shiksha for Cyber Suraksha awards by Quick Heal Foundation, Pune.**

**In last five years, 85,810 students were benefitted regarding cyber security, 749 volunteers were trained and received the remuneration of Rs 5,42,200/-**

**During critical pandemic situation, this activity has helped students while having online teaching.**

**This practice has also raised caring and mentoring aspect of students towards the juniors.**

#### **Problems Encountered and Resources Required:**

For implementation of this activity, involvement of the third party schools/ colleges is necessary. But some of the schools or colleges are reluctant to show interest in conducting sessions for their students as they thought their regular schedule get disturbed.

Some schools/colleges do not have necessary IT infrastructure. Inthis case, CALC provides laptopand projector to the volunteers.

### HOW TO PREVENT VICTIMIZATION?

- Always seek registered financial organizations.
- In case you are in receipt of such an offer from known organizations, visit the nearest branch of the organization instead of trusting on phone call/chat.
- Check for the language used for communication (Mostly wrong English is used).
- Never believe that everything on the internet/play store is genuine.
- Check for a profile of the caller - usually fraudsters use new/recent profiles for such crimes.
