Respected sir

1) According to FYBSc practical syllabus (Sem. II) there is a practical entitled Study of comparative account of Dicotyledonous and Monocotyledonous plants. But in practical examination skeleton paper there will be no any question on this topic. Please add any one question on this topic in question paper.

2) In the same semester, it is very difficult to arrange various material which is required for practical like DNA extraction and checking it's purity by 260:280 ratio. So if it is possible please introduce another practical like DPD or Transpiration.

Thanking you

Respected Sir,
According to **FYBSc** revised syllabus (16th June 2020), for Semester II, three new practicals were added. One of the new practical is "**Study of DPD by using suitable plant material**".
According to **SYBSc** new CBCS syllabus (from 2020), for semester III, one of the practical is "**Determination of Diffusion Pressure Deficit (DPD)**". This experiment is not related to the theory syllabus of SYBSc.

I think both practicals are the same. I think the DPD experiment is related to FYBSc theory syllabus. Please guide us regarding the same.

Thanks and Regards,

Respected Chairman
BOS Botany

According to revised FYBSc syllabus following practicals are added....
1. Study of Bentham and Hooker's system of classification outline up to series with example
2. Study of DPD by using suitable plant sample,
and
following practicals are deleted

1. Study of utilization and economic importance of Pteridophytes and Gymnosperms.
2. DNA extraction using banana / phenol chloroform method or any suitable method and checking purity of DNA by 260:280 ratio.
By considering above changes it is essential to change previous FYBSc Practical skeleton for sem. II.

Please provide revised FYBSc Practical skeleton for sem. II.
Previous FYBSc Practical skeleton for sem. II is attached here with.

Practical No 12. Demonstration of any Three Evidences of Organic Evolution

1. Evidences of organic Evolution from comparative Anatomy & Morphology

1. Homologous Organs:
2. Analogous Organs:

In the above practical, experimental evidences were put up of animal examples, I have suggested to include plants examples for Analogous Organs ex: Stipules *Lathyrus aphaca*, Petiole *Acacia auriculifolia* stem branches *Ruscus Asparagus* (The function of leaves is then taken over by other organs like stipules. So that they are analogous amongst them as well as to the leaves.)

3. Vestigial organ:
4. Connecting Links
5. Atavism:

2. Embryological evidences from Embryology

i. Recapitulation theory/ Biogenetic law

3. Biogeographical evidences from biogeography

i. Discontinuous distribution of closely related species
ii. Restricted distribution

Subject:- Suggestion in T. Y. B.Sc. Physics Practical Course PHY -357: Laboratory Course 3B

Respected Sir,

As per the syllabus of TYBSC Physics, it is found that X-ray diffraction practical is introduced, however the most of the college does not have the facility of XRD Set up. This practical is conducted theoretically by the colleges.

So I request you instead of X-ray diffraction practical introduce the determination of the bandgap by using UV-visible spectroscopy which is available in most of the colleges.

Thanking you

Respected Sir,

As per the syllabus of TYBSC Physics **Course PHY-354: Atomic and Molecular Physics (Credit-2)**, it is found that in third chapter Molecular Spectroscopy introductory part is included related to rotational and vibrational spectra for diatomic molecule. This topic already thought in FYBSC (PHY-112-Physics Principle and Application). As per my knowledge for the better understanding of this topic, Experimental part of UV-Visible and IR spectroscopy should be included in this chapter.

Hence it is requested to kindly add UV-Visible and IR spectroscopy in syllabus for conceptual and practical understanding of the students.

Thanking you

Subject :- Suggestion for T.Y. B. Sc. (Electronics) CBCS pattern syllabus.

Respected Sir,

As per the new syllabus for T.Y. B. Sc. (Physics) CBCS pattern will be implemented from 2021-22. I have some suggestion regarding Electronics course as follows.

1. First Chapter Semiconductor devices please remove repeated portion which included in SYBSC Electronics I. For Ex:- Rectifier Filter, and Power supply
2. More focus should be taken on designing and problem solving approaches for electronic circuits.

Please do the needful.

(T.Y. B.Sc. Physics Syllabus)

 T.Y.B.Sc. (Physics) (Sem-V) PHY-354: Atomic and Molecular Physics	
Lectures: 36	(Credits-02)
1: Atomic structure	(6 L)
1. Revision of various atomic models 2. Vector atom model (Concepts of space quantization and electron spin) 3. Pauli Exclusion Principle and electron configuration, Quantum states, Spectral notations of quantum states. 4. Problems	
2: One and Two Valence electron systems	(12 L)
1. Spin-Orbit Interaction (Single valence electron atom), Energy levels of Na-atom, Selection rules, Spectra of sodium atom, Sodium doublet. 2. Spectral terms of two electron atoms, terms for equivalent electrons, LS and JJ-coupling schemes. 3. Singlet-Triplet separations for interaction energy of LS coupling, Lande's interval rule, Spectra of Helium atom. 4. Problems	
3: Zeeman Effect	(4 L)
1. Zeeman Effect 2. Experimental arrangement 3. Normal and anomalous Zeeman Effect 4. Stark effect (Qualitative discussion) 5. Applications of Zeeman effects 6. Problems	
4: Molecular spectroscopy	(8 L)
1. Introduction of molecular spectra and its types 2. Rotational energy levels, Rotational spectra of rigid diatomic molecule 3. Vibrational energy levels 4. Rotational and Vibrational spectra 5. Electronic spectra of molecules 6. <u>Applications of UV-Vis spectroscopy</u> 7. Problems	
5: Raman spectroscopy	(6 L)
1. History of Raman effect, Molecular polarizability 2. Classical theory and Quantum theory of Raman Effect 3. Characteristics Raman Lines and Applications of Raman spectroscopy 4. Problems

Subject :- Regarding T.Y. B. Sc. CBCS pattern syllabus.

Respected Sir,

As per the online meeting conducted by Bos member with Physics teacher of SPPU, I would like to suggest to introduce python course in syllabus.

Please do the needful.
